Millitest d.o.o. is solely authorized agent of leading Life Science companies: Millipore, Esco, Skan and Restek. These companies provide cutting-edge technologies, tools, and services for bioscience research and biopharmaceutical manufacturing. As a reliable partner, we collaborate with our customers from research through development to production. In order to expand our business activities, we are searching for dedicated and result driven people for the position of:

## **Sales & Technical Support Engineer**

### **Requirements**

- university or academy degree in technology, chemistry, physical chemistry or equivalent
- fluency in english and PC literacy are prerequisites
- active driver, willing for frequent traveling
- capable to fulfill both sales and service tasks
- excellent communication and organisation skills, initiative, dynamic and proactive attitude

### **Selected candidates will be requested to pass professional tests:**

- personality and motivation test
- english language test

### **Responsibilities**

- expanding sales network and maintaining strong professional relationships with existing clients
- providing full technical and service support to the users
- administration of all service and sales activities
- preparation and realisation of seminars, presentations, newsletters and other marketing related activities

If you are interested in this position, please send your CV (in English or Serbian) and small photo to our e-mail address, with full confidentiality: [jelena.petrovic@millitest.com](mailto:jelena.petrovic@millitest.com), **latest July 31**.
